

Priya Sharma

Mechanical Design Engineer

priya.sharma.mech@gmail.com | +91 91234 56780 | Pune, India | linkedin.com/in/priyasharma-mech

PROFESSIONAL SUMMARY

Mechanical engineer with 3 years of experience in CAD design, FEA simulation, and product development for automotive components. Proven record of reducing material cost while meeting safety tolerances.

SKILLS

SolidWorks | AutoCAD | ANSYS | GD&T; | DFMEA | Six Sigma | MATLAB | Product Lifecycle Management

EXPERIENCE

Mechanical Design Engineer — Bharat AutoParts Ltd.

Pune, India | Apr 2023 – Present

- Led redesign of suspension bracket assembly, reducing weight by 14% while maintaining FEA safety factor above 2.5.
- Coordinated with 3 cross-functional teams to bring 5 new component designs from concept to production.
- Reduced prototyping cost by 18% by standardizing fastener specifications across product lines.

Graduate Engineer Trainee — Sundaram Forge Works

Chennai, India | Jun 2021 – Mar 2023

- Performed tolerance stack-up analysis for 12 machined components used in gearbox assemblies.
- Created and maintained over 200 detailed engineering drawings in SolidWorks and AutoCAD.

PROJECTS

Low-Cost Solar Water Pump (Capstone Project)

Designed and built a solar-powered irrigation pump prototype for small farms; achieved 22% efficiency improvement over baseline design.

EDUCATION

B.E. in Mechanical Engineering

College of Engineering, Pune | 2017 – 2021

CERTIFICATIONS

Certified SolidWorks Professional (CSWP) | Six Sigma Green Belt
