

Abhishek Bairwa

Data Scientist | ML Engineer | Python Developer

Jaipur, Rajasthan | abhi@example.com | linkedin.com/in/abhishek-bairwa | github.com/Abhi-data-scientist

PROFESSIONAL SUMMARY

Final-year B.Tech CSE student with hands-on experience in EDA, ML model development, and full-stack data applications. Passionate about transforming raw data into actionable insights. HackMetrix 2nd-place winner. Seeking Data Scientist / ML Engineer roles.

TECHNICAL SKILLS

Languages Python, SQL, C

Frameworks Flask, FastAPI, Scikit-learn

Data & Viz Pandas, NumPy, Matplotlib, Seaborn, Plotly

Databases MySQL, SQLAlchemy

Tools Git, GitHub, VS Code, Jupyter, Google Colab, Zapier

Certifications HackerRank SQL Basic & Intermediate (4-star SQL)

WORK EXPERIENCE

Data Science Intern – Regex Software, Jaipur | 2024 – Present

- Performed EDA on large datasets; identified key trends reducing preprocessing time by 30%.
- Built ML classification models (Decision Tree, Random Forest) achieving 89% accuracy.
- Developed interactive dashboards using Plotly and Flask for client reporting.
- Designed a heart disease prediction web app (Flask + HTML/CSS/JS with ECG animation).

PROJECTS

Shahi Baithak Cafe Web App – Full-stack app with Flask, MySQL, SQLAlchemy, Flask-Login; Rajputana palace aesthetic.

Loan Prediction App – Decision Tree classifier + Flask backend; gold/ink-themed UI with result page.

Patient Management System – HTML/CSS/JS frontend with FastAPI backend; resolved CORS & static file issues.

EDUCATION

B.Tech – Computer Science & Engineering | CGPA: 7.5

Compucom Institute of Technology & Management, Jaipur (RTU) | Expected 2025

ACHIEVEMENTS

- 2nd Place – HackMetrix Hackathon
- HackerRank SQL Basic & Intermediate Certified | 4-star SQL
- Daily contributor on LinkedIn & GitHub
